Powering Inno

Power Electronics Division

C&D Technologies was founded on innovation - when Frank Carlyle and Leon Doughty began a career converting gas lighting to electricity in the early 1900s.

Since then the organization has grown into a global force in power conversion and storage and is now a world-leading manufacturer, listed on the New York Stock Exchange (NYSE:CHP).

As we have changed, so have the demands of our customers. Where a simple light bulb would have amazed Carlyle and Dougherty's first customers, today's electronic design engineers need innovative solutions for their ever more complex power needs. We aim not only to meet these needs, but

to design the solutions that provide the power to drive the innovations of the future.

With half a million square feet of manufacturing in six facilities on three continents, eight development labs and 12 sales offices around the world, C&D Technologies' Power Electronics Division boasts some of the best resources in the power electronics industry.

Our product range is the widest available today and is constantly being updated to keep pace with the many markets we serve.

Value, quality, reliability and innovation go hand-in-hand with total customer support to ensure that our products and services are second to none.

C&D Technologies, Inc.

C&D Technologies, Inc. is a technology company that produces and markets systems for the power conversion and storage of electrical power, including industrial batteries and electronics. The organization comprises three operating divisions:

Power Electronics Division

designs, manufactures and markets products for the conversion of power within electronic systems. Products include DC/DC & AC/DC converters, support magnetics, digital panel meters and data acquisition products.

Standby Division designs, manufactures and markets batteries for standby power in telecommunications, uninterruptible power systems (UPS), broadband, CATV and mobility traction applications.

Motive Power Division develops, manufactures and markets the world's leading motive power batteries, advanced chargers, electronic monitoring modules, maintenance tools and computerized management systems.

Full data on over 3,400 products are available online now.

The site offers an interactive resource for engineers sourcing all our product ranges and features:

- Intelligent product search
- Technical support details
- RoHS information
- Online purchasing
- Product datasheets
- Application notes
- Sample requests
- Custom parts requests

C&D Technologies Inc. reserves the right to alter or improve the specifications, data, descriptions, internal design or manufacturing process at any time, without notice. Please check with your supplier or visit our web site to ensure that you have the current and complete specification for your product before use.

While such information is believed to be accurate as indicated herein, C&D Technologies, Inc. makes no warranty and hereby disclaims all warranties, express or implied, with regard to the accuracy or completeness of such information. Further, because the product(s) featured herein may be used under conditions beyond its control, C&D Technologies, Inc. hereby disclaims all warranties, either express or implied, concerning the fitness or suitability of such product(s) for any particular use or in any specific application or arising from any course of dealing or usage of trade. The user is solely responsible for determining the

suitability of the product(s) featured herein for user's intended purpose and in user's specific application. The products are not suitable for use as Safety Critical Components¹, in Life Support Devices² or on aircraft.

C&D Technologies, Inc.'s liability for any breach of warranty is limited as set forth in C&D Technologies, Inc.'s standard warranty applicable to the product ("The Warranty"). The warranty is exclusive and offered in lieu of all other express, implied or statutory warranties including, without limitation, implied warranties of merchantability and fitness for a particular purpose.

In no event shall C&D Technologies, Inc.'s liability for any damages arising out of any sale of products to buyer, and regardless of the legal theory on which such damages may be based, exceed the amount that supplier has received as payment for such products and under no circumstances shall supplier be subject to any consequential, incidental, indirect, special or contingent damages whatsoever, including but not limited

to damages for lost profits or goodwill, even if supplier was advised of the possibility of such damage.

No part of this publication may be copied, transmitted or stored in a retrieval system or reproduced in any way including, but not limited to, photography, photocopy, magnetic or other recording means, without prior written permission from C&D Technologies, Inc.

- 1 Safety Critical Component means any component whose failure to perform could cause the failure of, or affect the operation of a Life Support Device.
- 2 Life Support Device means any device, system or ancillary equipment intended for implant into the body or used in relation to supporting or sustaining life.

Filtering & Isolation - A Core Consideration

Two essential elements of the vast majority of power electronics applications are filtering and isolation. Whether you need to reduce noise or protect vital components, C&D can offer a wide range of products to suit your requirements.

We have developed over 400 highly advanced and optimized inductor and transformer solutions with the emphasis on miniaturization, reliability and ease of handling. These power oriented designs are available in a variety of styles including bobbin, radial, axial and surface mount.

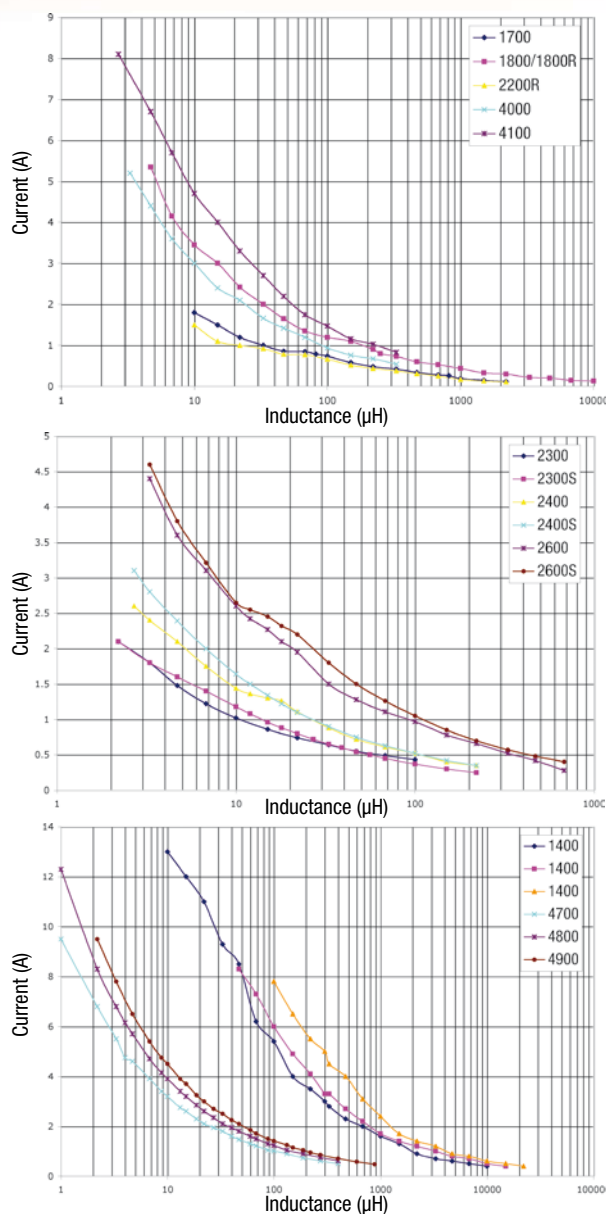

Tape and reel packaging is available for surface mount devices making them ideal for pick and place assembly lines.

How to select a suitable inductor...

For ease of selection, simply identify the package type by the contents panel (if necessary), and then refer to the graphs on this page, to see which L and I_{OC} variants are available.

Once you have a suitable product, please refer to the listed product page to find further details, or acquire a datasheet from www.cd4power.com/magnetics for the full specification.

Please Note: Both parallel and series combinations of the 4700, 4800 and 4900 series have been plotted.

1400 Series

Through Hole Bobbin Inductors

Inductance: 10 μ H to 22mH

Current: Up to 13A I_{DC}

Operating temperature: -40 to +85°C

Height: 14 to 21.8mm (0.55-0.85")

Features: Custom options available

Datasheet:			1400 Series

4700 Series

Shielded SM Dual Wound Inductors

Inductance: 1.0 to 400 μ H

Current: Up to 9.5A I_{DC}

Operating temperature: -40 to 85°C

Height: 5.0mm (0.20")

Features: Can be used as an inductor, CMC or 1:1 transformer. Low EMI.

4800 Series

Shielded SM Dual Wound Inductors

Inductance: 1.0 to 400 μ H

Current: Up to 12.3A I_{DC}

Operating temperature: -40 to 85°C

Height: 6.2mm (0.24")

Features: Can be used as an inductor, CMC or 1:1 transformer. Low EMI.

Datasheet: 4800 Series

4900 Series

Shielded SM Dual Wound Inductors

Inductance: 2.2 to 880 μ H

Current: Up to 9.5A I_{DC}

Operating temperature: -40 to 85°C

Height: 8.0mm (0.31")

Features: Can be used as an inductor, CMC or 1:1 transformer. Low EMI.

5600 Series

Current Sensing Transformers

- 50, 100, 200 & 300 Turn variants
- Primary current rating to 10A
- Primary to secondary isolation 500VDC
- 20kHz-200kHz frequency range
- Centre tapped variants available

Datasheet:		5600 Series		
Number of Turns	Inductance Range	DC Resistance	Terminating Resistance to Produce 1VOUT/1AIN	Model Number
±1Turn	Pins 1&3, 5kHz	Pins 1&3, Ω	Ω ±5%	
50	5.00 - 9.30mH @1V	0.133 - 0.199	50	56050

Maxim Compatible Transformers

- For use with MAX250 & MAX253 Chipsets
- 3.3 & 5.0V Versions
- EN60950 Versions Available – 6kV_{DC} Isolation
- Tape & Reel and SMD Options
- Operating Frequency Range to 500kHz
- Toroidal construction reduces EMI

DC Resistance R _{DC}	<0.1VDC		0.70	1.50	Ω	
Volt-time Product E _T	5kHz, 5V	50	65		Vμs	
78253/55(M)V – Turns Ratio 1:1.33 (MAX 253 Compatible) Datasheet: 78253 Series						
Isolation Voltage	Flash tested for 1 second	4.0			kVDC	
Primary Inductance L _P	100kHz, 20mV	190	240	310	μH	
Secondary Inductance L _S	100kHz, 20mV	350	444	540	μH	
Leakage Inductance L _L	100kHz, 250mV		5.20	8.00	μH	
Interwinding Capacitance C _{WW}	100kHz, 250mV		4.20	8.00	pF	
DC Resistance R _{DC}	<0.1VDC		0.40	0.60	Ω	
76253/55EN – Turns Ratio 1:1.33 Safety Approved Txfr Datasheet: 7625XEN						
Isolation Voltage	Flash tested for 1 second	6.0			kVDC	
Primary Inductance L _P	100kHz, 250mV	120	205	250	μH	

Secondary Inductance L _S	100kHz, 250mV	280	362	445	μH
Leakage Inductance L _L	100kHz, 250mV		3.90	5.00	μH
Interwinding Capacitance C _{WW}	100kHz, 250mV		1.20	3.00	pF
DC Resistance R _{DC}	<0.1VDC		0.90	1.50	Ω
Volt-time Product E _T	5kHz, 5V	20	23		Vμs

Dual & Quad Databus Isolators

- TTL to CMOS Bi-Directional Logic Conversion
- Toroidal construction reduces EMI
- Dual/Quad Variants
- Isolation Voltage to 700V_{DC}
- Low Profile

Datasheets: 1600 Series						
Isolator Type	Function	Pulse Width (Max)	Turns Ratio	Primary Inductance (Typ)	Interwinding Capacitance (Typical)	Package Style
Dual	5V to 5V Logic Isolation	5	1:1	3	60	DIL
Quad	5V to 5V Logic Isolation	5	1:1	3	60	DIL
Quad	5V to 15V Logic Isolation	2.6	1:3	1	34	DIL

Digital Audio Transformers

- Designed for use in Audio Equipment (eg. Hi-Fi, Video etc.)
- Compliant with AES/EBU Standards
- Isolation to 1kV_{RMS}
- Tape & Reel and SMD Options Available
- Compatible with Leading Chipsets

Datasheets: DA100 Series						
Turns Ratio	E _T Constant (Min)	Primary Inductance (Min)	Leakage Inductance (Max)	Return Loss (Min)	Common Mode Rejection (Typ)	Package Style
1:1	Vμs	mH	μH	dB	dB	
15	1.00-1.59	0.22	46.8	52.1		DIL
20	2.00-3.00	0.39	40.4	49.7		
28	4.00-5.96	0.91	36.3	46.4		
15	1.00-1.59	0.22	46.8	52.1		SMD
20	2.00-3.00	0.39	40.4	49.7		
28	4.00-5.96	0.91	36.3	46.4		

Differential/Common-Mode Filters

- Compatible with most modern switching DC/DC converters
- Provides both CM & DM filtering
- UL Approved
- UL94V-0 Rated Package Material

Datasheets: FLT Series					
Average Current	Input Voltage	Typical Resistance Per Leg	Common Mode Insertion Loss	Differential Mode Insertion Loss	Model Number
A (Max.)	V (Max.)	mΩ (Max.)	dB (Typ.)	dB (Typ.)	
10	100	4.8	-37	-58	FLT-100V10
20	100	9.5	-29	-48	FLT-100V20

C&D Technologies

...Powering Innovation

Well Proven Designs

To allow you to design C&D products into your application with absolute confidence, we operate a comprehensive program of design verification.

This Design Verification Testing (DVT) process ensures that the specifications stated on our datasheets accurately represent the performance of our products. Tests are product specific but generally include:

Test	Standard
Electrical Characteristics	C&D Technologies internal
Solderability	CEIA ANSI/J-STD-002
Lead Temperature (Solder Heat)	C&D Technologies internal
Peak Reflow Temperature	CECC 00802
Isolation	C&D Technologies internal
Lead Finish Adhesion	Mil-Std 883E/2025.4
Temperature Cycling	Mil-Std 883E/1010.7
Mechanical Shock	Mil-Std 883E/2002.3
Vibration	Mil-Std 883E/2007.2
Bump	ETS 300 019-2-4
High Temperature Storage Life	EIA JESD 22-A103-A
Humidity Bias	EIA JESD 22-A101-B
Flammability	BS EN 60695-11-7
Lead Integrity Tension & Fatigue	Mil-Std 883E/2004
Solvent Resistance	Mil-Std 883E/2015.11
Coplanarity	EIA JESD22-B108

Environmental Responsibility

C&D Technologies is committed to achieving compliance with the European RoHS and WEEE directives which aim to reduce waste and its impact on the environment.

RoHS (Restriction of Hazardous Substances) Directive

RoHS is a European Parliament Directive requiring member states to legislate that electrical/electronic equipment sold after July 1st 2006 does not contain six potentially hazardous substances including lead (Pb).

WEEE (Waste Electrical & Electronic Equipment) Directive

This is another European directive which aims to:

- reduce the amount of electrical waste that is dumped in land fill sites every year within the European community
- develop a holistic view, on a global basis, that there is a real requirement to adopt a "cradle to grave" philosophy relating to Producer Responsibility.

These directives are among many legislative activities around the world which are driving the conversion to RoHS compliant, Pb-free components.

Our Policy

At C&D Technologies we have put in place comprehensive plans to migrate to RoHS compliant technologies with minimum disruption to customers and without compromise in critical areas such as product performance, reliability and cost.

Since the announcement of the RoHS Directive we have been working with our supplier base to eliminate non-compliant materials from the components in our products. Pb-free assembly lines are in place at all our manufacturing facilities to ensure that all available products are RoHS compliant by the July 06 deadline.

We constantly strive to improve our manufacturing processes and improve our level of environmental awareness. In addition to the move to Pb-free processes, recycling of waste materials, reduction of energy used, and the design of new products to accommodate end of life recycling are key areas where we are making positive progress towards a more environmentally friendly future.

DC/DC Converters

C&D Technologies are proud to offer the largest range of DC/DC Converters available from a single manufacturer. Our ever increasing product portfolio includes all the options you'll ever need, including:

- **Isolated DC/DC Converters**

Single, dual, triple and quad output from 0.25 to 340 Watts.

- **Point-of-Load Converters**

From 0.75 to 5V outputs (including user-selectable versions) at current levels from 0.5 to 50A.

- **Processor & Memory Support**

Support for 64 & 32-bit processors and DDR1 & DDR2 memory.

- **Bus Converters**

Designed to take advantage of the high-efficiency and cost savings of intermediate bus architectures.

- **Digital Power**

Digital IBA - a multi-source open architecture power solution that utilizes an industry-standard 1²C interface to allow you to configure your power system (up to 32 PoLs) in less than 1 hour.

- **Factorized Power**

V•I Chips delivering up to 300W available in 'in-board' BGA configuration or as 'on-board' J-lead SMDs.

AC/DC Power Supplies

C&D Technologies has AC/DC power supplies to meet every possible application requirement in terms of power, performance, efficiency, protection, size, approvals compliance, and cooling requirements.

- **Military**

Our military specialists at Celab have over 30 years' experience designing and producing power supplies for Avionic, Naval, Tracked, Land and Portable.

- **CATV / Telco**

Ultra-reliable, ruggedized power supplies for harsh CATV and Telecommunications

- **PCI & cPCI**

From 200-500W, many with IPMI functionality in packages as small as 3U x 4HP

- **Configurable**

400-1000W, up to 12 Output, general & medical configurations

- **Front End Modules for DPAs**

AC to 48VDC ultra compact front end supplies for distributed power architectures with active power factor correction

- **Custom Power Supplies**

Our design teams have the engineering expertise, experience, tools, processes and manufacturing capabilities to meet your needs

Digital Panel Meters

Over 25 years of designing and manufacturing digital panel meters has not dulled our spirit of innovation. Today we are focusing on specific applications of 2-wire meters, process monitors and AC or DC ammeters that are the easiest-to-use, most affordable meters available.

- **General Purpose Voltmeters**

Versatile, 12-pin, dual-in-line package offering component like "plug-in" convenience for pc-board mounting as well as a built-in bezel for easy panel mounting.

- **2-Wire Meters**

Power your measuring instrument with the signal you're measuring! Measure the voltage at a standard USA-style wall outlet simply by "plugging in" an AC line monitor. Monitor the 400MHz frequency of an aircraft power generator without worrying about "proper" grounding.

- **Process Monitors**

4/20mA and 0-10V process control monitors

- **AC Ammeters**

Directly measure AC currents from 0-2A to 0-100A

- **DC Ammeters**

Include built-in shunts, reverse-polarity protection, and connections for all supply and load wiring

Data Acquisition

Our leadership status in high-performance data acquisition components is unchallenged. Our outstanding electrical performance, small packaging, low-power consumption and ease-of-use will genuinely impress you.

- **Electronic Imaging**

Resolution from 8 to 18-bits and sampling rates 20MSPS, Low cost commercial and military high-reliability versions

- **A/D Converters**

- **Sampling A/D Converters**

Ideal for high-end applications such as medical or life-science imaging, analytical instrumentation and military pulse and spread-spectrum applications

- **Digital-to-Analog Converters**

Settling times to 20 nanoseconds, update rates to 100MHz

- **Sample/Hold Amplifiers**

Accuracies from 0.01% to 0.0008% (12 to 16 bit equivalent resolution)

- **Single-Package Data Acquisition**

Multi-channel with differential or single-ended options

- **Multiplexers**
